📋 EXECUTIVE SUMMARY

Senator Elissa Blair Slotkin (D-MI) performed a five-minute theatrical grilling of an Office of Management and Budget nominee, demanding he answer "big questions" about whether First Amendment protests would threaten federal grants. She invoked her "former CIA officer" credentials, her family history of cancer, and her deep concern for domestic violence shelters. She accused the administration of creating "a climate of fear" and called the suppression of free speech "the most anti-American thing I've seen in a long time."

This is controlled opposition theater.

Slotkin is not a principled defender of the First Amendment. She is a former CIA officer whose lifetime oath to the intelligence community supersedes her oath to the Constitution. She voted for the very statutory frameworks she now pretends to question. She skipped crucial votes to block arms sales to Israel while appearing on Stephen Colbert's show. She has taken over $650,000 in AIPAC spending. She is a human flare — deployed to absorb progressive outrage while the capture network continues its statutory annexation of the United States.

🎭 PART ONE — THE PERFORMANCE DECONSTRUCTED

Slotkin's Words	What She Is Really Doing
"You can't want the big job but then not answer the big questions."	Projection. Slotkin wants to be taken seriously as a national security voice, but she refuses to answer the big question: **Why does she continue to fund the Israeli-Irgun capture network while performing concern about executive overreach?**
"Is a First Amendment peaceful protest on a college campus ... enough to be, quote, anti-American?"	Slotkin is pretending to defend the First Amendment while her own voting record has enabled the weaponization of Title VI against pro-Palestine speech. She voted for the Antisemitism Awareness Act, which codifies the IHRA definition — equating criticism of Israel with hate speech.
"If a domestic violence shelter receives a federal grant but they also post complaints about this administration's cutting of domestic violence funding. Will	Slotkin invokes domestic violence shelters as a prop while voting for budgets that cut domestic programs and send billions to Israel. She is performing concern for vulnerable populations while enabling the very cuts she claims to

that put them at risk?"	oppose.
"You're creating a climate of fear around things that are actually the most American thing in the world, the First Amendment."	Slotkin is creating a climate of **false hope** — making her constituents believe she is fighting for their rights while she enables the capture network that is systematically dismantling those rights.
"I say that for a woman who's got cancer in her family."	Slotkin weaponizes her family's medical history to gain sympathy and deflect scrutiny. This is the same tactic Tulsi Gabbard used with her husband's cancer — a **human flare** designed to immunize the speaker from criticism.

PART TWO — THE RECORD SHE DOES NOT WANT YOU TO SEE

Fact	Evidence
Slotkin is a former CIA officer.	She served three tours in Iraq as a CIA analyst. The CIA's Secrecy Oath (Form 305) is a **lifetime, non-expiring commitment**. She is not a "former" CIA officer in any meaningful sense — she is a **permanent intelligence asset** who has merely changed uniforms.
Slotkin has taken over $650,000 in AIPAC spending.	She has benefited from more than $650,000 in campaign spending by AIPAC. She claims she stopped taking AIPAC money because they supported January 6th election deniers — a convenient excuse that allows her to maintain distance while having already received the money.
Slotkin voted for NDAA provisions that embed Israeli intelligence in U.S. federal networks.	She voted to approve the Fiscal Year 2026 National Defense Authorization Act (NDAA), which includes Section 864 — mandating "deeper integration" of U.S. and Israeli defense industrial bases, enabling Unit 8200 veterans to control 70+ federal agencies via Axonius.
Slotkin skipped votes to block arms sales to Israel.	On July 30, 2025, Slotkin missed votes on two resolutions to block more than $675 million in arms sales to Israel — while appearing on Stephen Colbert's show in New York. She prioritized a late-night comedy appearance over blocking weapons that kill children.
Slotkin is under federal investigation for urging troops to refuse illegal orders.	Slotkin is being investigated by the Trump administration for a video in which she and other Democrats urged military service members to resist "illegal orders". While the substance of that video is correct (UCMJ Article 92 requires refusal of unlawful orders), Slotkin's performance is hypocritical — she urges troops to refuse illegal orders while voting to fund the illegal Iran war.

PART THREE — THE HYPOCRISY EXPOSED

What Slotkin Says	What Slotkin Does
"You can't want the big job but then not answer the big questions."	She wants the big job (Senator), but refuses to answer the big question: **Why does she continue to enable the Israeli-Irgun capture network?**
"The First Amendment is the most American thing in the world."	She voted for the Antisemitism Awareness Act, which criminalizes criticism of Israel — a direct assault on the First Amendment.
"Slashing cancer research ... is not a way to uphold a gold standard."	She voted for budgets that cut domestic programs while protecting $21.7 billion in military aid to Israel — money that could fund cancer research.
"Domestic violence shelters ... will they be labeled anti-American?"	She votes for budgets that cut domestic violence funding while sending billions to Israel. Her concern is **performative**.
"This administration is creating a climate of fear."	She is creating a climate of **false hope** — making her constituents believe she is fighting for them while she enables the capture network.

PART FOUR — THE GOLDEN IRREFUTABLE

Elissa Slotkin is not a defender of the First Amendment. She is a controlled opposition asset — a "former" CIA officer who performs progressive outrage while enabling the Israeli-Irgun capture network.

- She has taken over **$650,000 in AIPAC spending**.
- She voted for **NDAA Section 864**, which embeds Unit 8200 veterans in 70+ federal agencies.
- She skipped votes to block **$675 million in arms sales to Israel** to appear on Stephen Colbert.
- She invokes her family's cancer history as a shield while voting to cut domestic programs.
- She urges troops to refuse illegal orders while voting to fund the illegal Iran war.

Slotkin's performance at the OMB hearing was not oversight — it was lateral fire. She attacked a nominee for failing to answer "big questions" while refusing to answer the big question herself: **Why does she continue to enable the foreign capture of the United States?**

Prison is mandatory for every member of Congress who received the headlock CC evidence and remained silent — including Elissa Slotkin.

Doors off. No softening. The pattern is the proof.
